TF Thyroid Function Baseline Profile

Biomarkers:

Thyroid Stimulating Hormone (TSH)	✓
Free T4 (throxine)	✓

About the test:

This profile is to check the function of your thyroid gland. It checks the level of Thyroid Stimulating Hormone (TSH) and Free T4 (FT4). It will give you a good indication into whether your thyroid is functioning normally or not.

Price: £29

ML1P Enhanced Biochemistry Profile

Biomarkers:

Liver Function

Albumin	✓
Globulin	✓
Total Protein	✓
Alkaline Phosphatase (ALP)	✓
Alanine transaminase (ALT)	✓
Aspartate aminotransferase (AST)	✓
Gamma GT (GGT)	✓
Total Bilirubin	✓

Cholesterol

Total Cholesterol	✓
High Density Lipoprotein (HDL)	✓
Low Density Lipoprotein (LDL)	✓
Total Cholesterol : HDL Ratio	✓
Non HDL Cholesterol	✓
Triglyceride	✓

Urea	✓
Creatinine	✓
Glomerular Filtration Rate	✓

Iron

Iron	✓
Total Iron Binding Concentration	✓
Unsaturated Iron	✓
Binding Concentration	✓
Transferrin	✓

Muscle & Bone

Creatine Kinase	✓
Calcium	✓
Adjusted calcium	✓

Gout

Urate (Uric Acid)	✓
-------------------	---

About the test:

This profile is a comprehensive check of your liver & kidney function, your bone health, iron levels and your full cholesterol profile.

Price: £49

ISP Iron Status Profile

Biomarkers:

Iron	✓
Total Iron Binding Concentration	✓
Unsaturated Iron Binding Concentration	✓
Ferritin	✓
Transferrin	✓

About the test:

*This profile is to check the levels of Iron, Iron stores and an indication of inflammation levels.
Low iron can cause anaemia, a common problem causing a list of problems starting with fatigue, weakness and coldness, progressing to more serious problems.*

Price: £49

ML2P Premier General Health Profile

Biomarkers:

Liver Function	
Albumin	✓
Globulin	✓
Total Protein	✓
Alkaline Phosphatase (ALP)	✓
Alanine transaminase (ALT)	✓
Aspartate aminotransferase (AST)	✓
Gamma GT	✓
Total Bilirubin	✓

Calcium	✓
Adjusted Calcium	✓
Gout	
Urate (Uric Acid)	✓
Diabetes	
HbA1c (Glycosylated Haemoglobin)	✓
Blood Cells	
Full Blood Count (with 5 part White Cell Differential)	✓

About the test:

Comprehensive check of liver & kidney function, bone health, iron levels and a full cholesterol profile – including a full blood count checking the health and number of your red blood cells, white blood cells and platelets.

Price: £79

VP Vitamin Profile: D, B12 & Folate

Biomarkers:

Vitamin D	✓
Vitamin B12	✓
Folate (Vitamin B9)	✓

About the test:

This profile is to check your Vitamin D, Vitamin B12 and Folate levels. These vitamins are all essential for the health and wellbeing.

- Vitamin B12 is particularly important for those on a plant-based diet. Low levels of Vitamin B12 and Folate can have very severe effects on blood and overall health.
- Vitamin D is also very important for anyone living in the UK. Up to a quarter of the population is low in Vitamin D at the end of winter. Low levels can cause a long list of health problems including fatigue, bone & muscle pain, depression and more.

Price: £79

TF2 Full Thyroid Profile

Biomarkers:

Thyroid Stimulating Hormone (TSH)	✓
Free T3 (triiodothyronine)	✓
Free T4 (throxine)	✓
Antithyroglobulin Antibodies	✓
Thyroid Peroxidase Antibodies	✓

About the test:

This profile is to check the function of your thyroid gland and includes thyroid antibodies. It checks the level of Thyroid Stimulating Hormone (TSH), Free T4 (FT4) Free T3 (FT3), Thyroglobulin Antibodies & Thyroid Peroxidase Antibodies. It will give you a complete picture into whether your thyroid is functioning normally or not and will also give you an indication of whether you have an thyroid autoimmune condition which is one of the commonest reasons for hypothyroidism.

Price: £79

PR2 Prostate Profile

Biomarkers:

Total Prostate Specific Antigen	✓
Free Prostate Specific Antigen	✓
Free : Total Ratio	✓

About the test:

This profile is to check the levels of Prostate Specific Antigen (PSA). A high PSA can sometimes indicate problems (including prostate cancer) with the prostate gland.

Please note that a PSA test cannot be relied on to either diagnose prostate cancer - or exclude the presence of prostate cancer. If it is high then you will need further investigations with a Urologist. If you have symptoms and it is low you will still need to see a doctor to consider further investigations.

Price: £79

HHP Heart Health Profile

Biomarkers:

Cholesterol	
Total Cholesterol	✓
High Density Lipoprotein (HDL)	✓
Low Density Lipoprotein (LDL)	✓
Total Cholesterol : HDL Ratio	✓
Non HDL Cholesterol	✓
Triglyceride	✓
Inflammation	
High Sensitivity C-Reactive Protein	✓
Diabetes	
HbA1C	✓

About the test:

Cholesterol, Inflammation and diabetes check combined.

Price: £79

FIP Female Hormone Profile (including Infertility, Menopause, HRT)

Biomarkers:

Oestradiol	✓
Follicular Stimulating Hormone (FSH)	✓
Luteinizing Hormone (LH)	✓
Prolactin	✓

About the test:

This profile checks for the full range of female hormones and is very useful for giving information about Fertility, Menopause, period problems and Hormone Replacement Therapy monitoring and other hormone related problems.

Price: £79

MHP Male Hormone Profile (including Fertility & Sports Basic)

Biomarkers:

Hormones	
Albumin (Liver Protein)	✓
Oestradiol	✓
Follicular Stimulating Hormone (FSH)	✓
Luteinizing Hormone (LH)	✓
Prolactin	✓
Sex Hormone Binding Globulin (SHBG)	✓
Testosterone	✓
Free Testosterone Calculation	✓
DHEA-Sulphate	✓
Free Androgen Index	✓

About the test:

This profile checks for the full range of male hormones and is very useful for giving information about fertility. It also covers a full range of hormones relevant to sports and testosterone supplementation.

Price: £79

IMPOP Erectile Dysfunction Profile

Biomarkers:

Cholesterol	
Total Cholesterol	✓
High Density Lipoprotein (HDL)	✓
Low Density Lipoprotein (LDL)	✓

About the test:

This profile is our most comprehensive general wellness profile for women. It checks your liver & kidney function, your bone health, iron levels (including Ferritin) and your full cholesterol profile. It also checks your HbA1C level (which is diagnostic of diabetes) and your thyroid function. Added to all this it does a full blood count which checks the health and number of your red blood cells, white blood cells and platelets. Included is a test for inflammation and as a low Vitamin D level is so common for women in the UK, we test for this as well as Vitamin B12 and Folate levels. We also test for female hormones FSH, LH and Oestradiol and finally we test for Magnesium levels.

Price: £149
